EXPERIENCE

London Computer Systems (LCS)

01/23 - Present

Web Developer/Designer

Developed and customized WordPress websites using the Gutenberg editor, creating both pre-themed and fully custom designs to meet diverse client needs.

Integrated websites with APIs to display real-time availability listings connected to property management software, enhancing user experience and operational efficiency.

Collaborated with clients throughout the development process, providing dedicated support and training, ensuring seamless post-launch updates and customer satisfaction.

Keep On Moving Company

08/22 - 01/23

(6 Month Contract)

Digital Marketing Director

In this role, I developed a complete WordPress site, including service pages, dynamic location pages, and a blog. I implemented an SEO strategy for localized rankings and helped integrate a new CRM for scalable growth.

Helium SEO

04/19 - 08/22

Web Developer / SEO Coordinator

At Helium SEO, I worked as a Web Developer for over three years, focusing on front-end coding and implementing search engine marketing (SEM) strategies.
